SUPPORTING INFORMATION

National Fraud Initiative (NFI)

- 4.1 Work is continuing on clearing the matches released in January 2015 and December 2015. Tables 1 and 2 below show the number of matches reported, and the percentages cleared. The NFI team do not expect 100% clearance of all matches.

- 4.3 As has been the case in previous NFI exercises, there are a high number of creditors' matches. This is due to many suppliers being listed twice, as they are suppliers to both the Council and schools, and many matches appear on several reports. As a result, the matches checked are done on a "sample" basis as they have proved unproductive in the past.
- 4.4 The benefit matches usually produce the majority of the recovered sums, but take the longest to investigate. Since the last report the team who had been working on these cases has been transferred to the Department for Work and Pensions as part of the Single Fraud Investigation Service (SFIS).
- 4.5 Matches between Council Tax and Electoral Roll records are now performed on an annual basis. As at 10 June 2016, the clearance status on these records were:

Table 3: Council Tax/Electoral Register Matches

4.6	Dataset released December 2014	Released	Cleared	clawback
	Council Tax to electoral roll	2452	416	£77,976.75
	Council Tax to rising 18	130	116	£12,057.49

	Council Tax to rising 18	231	0	£0
	TOTAL	3157	83	£11,839.86

The next cycle of NFI uploads is expected to be due in October 2016. However, this will be the first exercise carried out completely by the Cabinet Office, rather than the Audit Commission, so changes to the timetable and the topics covered may arise. Further details will be provided in future update reports.

Anti-Fraud activity surveys

- 4.7 As last year, two surveys have been timetabled for completion in respect of data from 2015/16. The CIPFA survey has already been completed and the TheEuropean Institute for Combatting Corruption And Fraud (TEICCAF) survey is due to arrive at the end of June 2016, with a completion target of the end of July 2016.
