05/18 Opportunity Areas

The Board received a report of the Strategic Director of People Services presented by the Local Programme Manager, Derby Opportunity Area, on Opportunity Areas.

The report stated that the Department for Education (DfE) had announced the Opportunity Areas (OA) programme on 4 October 2016. Initially six areas were announced, namely: Derby, Scarborough, Blackpool, Norwich, West Somerset and Oldham. The areas have been highlighted due to their relatively low levels of social mobility as described in the Social Mobility Index published in January 2016. Within this index, Derby was placed 22nd from the bottom out of 324 areas nationally. In total, Derby would receive up to £6 million of funding over three years. In addition to this, the Department for Education (DfE) was now supporting this work in Opportunity Areas by developing an 'Essential Life Skills' programme over two years to enable children and young people aged 5 -18 years old to

participate in regular extra-curricular activities. It was intended that children and young people will be able to participate in additional out of school activities such as sports, volunteering and social action projects. The funding had been calculated on the basis that it would pay for weekly participation in extra-curricular activities for up to 40,000 pupils in up to 12 per cent of schools in the Opportunity Areas. In Derby, this amounted to a two year grant of up to £800,000 in 2017-18 and up to £1.6 million in 2018-19.

Furthermore the report explained to Members that Opportunity Areas was a strategy targeted towards stakeholders and children and young people to promote social mobility. The city council was the fund holder on behalf of the Local Opportunity Area Board which in turn advised the Department for Education.

The six areas were initially highlighted as being social mobility cold spots as defined in the Social Mobility and Child Poverty Commission's Social Mobility Index which was published in January 2016.

The Local Programme Manager, Derby Opportunity Area also gave a presentation to the Board, which outlined the following:

- Opportunity Areas

By working together with the DfE the Local OA board had identified three principal priorities as being drivers for change to improve social mobility within Derby city, these were:

- Increasing the number of children achieving a good level of development in the early years
- Raising attainment in primary and secondary schools
- Ensuring children and young people benefit from a broad range of experiences throughout their school lives.

Members discussed the Local Opportunity Area planned programmes and sought examples of the ways in which families and children and young people had been engage in the programmes; the Local Programme Manager, Derby Opportunity Area stated that this had not been strength of the programme so far but this issue was being addressed.
