## 89/15 Notice of Motion: Fair Deal for Derby

It was moved by Councillor Banwait, and seconded, that:

*Council recognises the existence of a funding crisis in local government. Council notes the findings of the National Audit Office, which estimate that funding has been cut by 37 per cent in real terms since 2010, despite increasing demand for services.*

*Council fears that new adult social care burdens, additional public health duties, welfare reform, pressures on social housing and demographic change have stretched vital services to breaking point.*

*Furthermore, the redistributive effect of policies like the New Homes Bonus and the Chancellor's Adult Social Care precept has diverted funding away from those authorities in greatest need.*

*The Fair Deal for Derby campaign found that the authority faced £379 of funding cuts per household by 2015/16, compared to an average of just £48 in the ten least deprived areas of the UK.*

*Council calls for a fairer funding formula and believes that a fundamental review of local government finance is necessary to ensure the delivery of public services that are fit for purpose.*

*Council urges all political groups to support a revised Fair Deal for Derby and Local Government campaign. Council supports the recommendations of the Special Interest Group of Municipal Authorities (SIGOMA) which has called on the Government to:*

- Immediately address the funding crisis in local government and protect vital public services;*
- Re-distribute funding streams and implement policies that support those authorities in greatest need; and*
- Consider the introduction of a fairer funding model that is sustainable, flexible and appropriate for local circumstances.*

It was moved by Councillor Carr, and seconded, that the motion be amended by the addition of the following words between "Council" and "calls" in the second fifth paragraph:

*"joins the Local Government Association's"*

And by the addition of the following final paragraph:

*"Council asks the Leader of the Council to write to the Secretary of State and the Chair of the Local Government Association to let them know of our support for this campaign."*

The amendment was put to the vote and carried.

As required under Rule CP71a of the Council Procedure Rules, it was demanded by at least 10 members that a recorded vote be taken on the motion as amended. The voting was as follows:

For the motion:

Councillors Afzal, Ashburner, Banwait, Bolton, Care, Carr, Dhindsa, Eldret, Froggatt, Graves, Hezelgrave, Jackson, Jones, J Khan, S Khan, MacDonald, Martin, Naitta,

Against the motion:  
None.

Abstentions:  
Councillors Barker, Harwood, Hassall, A Holmes, M Holmes, Keith, Poulter, Roulstone, Webb and Williams.

The motion as amended was carried.

## 90/15 Notice of Motion: Adult Social Care

It was moved by Councillor Repton, and seconded, that:

*"The Care Act 2014 has put additional responsibilities on local authorities. However, Council notes that the overall funding available for adult social care has been and continues to be significantly reduced.*

*The LGA estimates that central funding to local authorities will fall by 24 per cent in real terms by 2019/20, while under the Coalition Government adult social care spending has been cut by £4.5 billion. Locally, the picture is stark with £23 million of Government fuelled cuts in adult social care budgets in Derby since 2010/11.*

*Council notes the following information as evidence of a deepening crisis which is being ignored:*

- The Local Government Association, Association of Directors of Adult Social Services (ADASS), NHS Confederation and provider associations have all written to the Chancellor calling for immediate action.*
- The Chancellor's introduction of a 2 per cent council tax precept is woefully inadequate to address the scale of the crisis and penalises those areas with low Council Tax bases, which are often those with greatest need.*
- Even with the addition of the precept, Derby City Council faces a growing £3 million deficit in funding for adult social care.*
- ADASS and key figures have described the Government's response as "too little too late".*

*Council is concerned that failure to address the crisis will lead to deteriorating standards of care as demand continues to rise. By relying on local taxation, the Government is placing the burden on local communities to respond to a national crisis.*

*Council calls on the Government to provide sufficient resources to meet the needs of people in Derby. Failure to do so will put the most vulnerable people in our city at risk in the months and years to come.*

*Council resolves to instruct the Cabinet Member for Integrated Health and Care to write to the Minister of State for Community and Social Care urging him to address this alarming crisis immediately."*

The motion was put to the vote and carried.

It was moved by Councillor Hezelgrave, and seconded, that the requirement under Rule CP10 that the meeting end after four hours duration be waived. This was carried.

**Resolved that the requirement under Rule CP10 that the meeting end after four hours duration be waived.**

It was moved by Councillor Care, and seconded, that:

*Council welcomes the recent submission of part 1 (Local Plan) of the city's Core Strategy and the appointment of the inquiry inspector. However this neither lifts the pressure for more homes nor ensures that more housing is built.*

*Council notes that in the Derby area sufficient land has been allocated for the majority of new homes up to the end of the plan period in 2028, both within and close to the city. Consultations on the Part 2 allocations will be starting shortly to identify additional land. A large proportion of the housing land is already available, much with planning approval, sufficient to meet current demand for housing in the Derby area, but developers are not building homes at the rate required to meet this demand. This means that under the National Planning Policy Framework more land has to be allocated for housing.*

*Council notes that allocating further land means that developers can pick and choose which sites to develop, often choosing to build on greenfield sites over brownfield sites, and sites where they will make most profit, not sites which local people would like to see developed. This is not just a problem in Derby.*

*Council believes that local authorities should be given more influence over sites allocated for housing including by:*

- Being able to raise a charge against land with planning approval where building has not started or where it has begun but is not continuing at a reasonable rate*
- Removing the requirement for additional housing land to be allocated if there are no substantive reasons for existing allocations not to be built on*
- Enabling mechanisms for the transfer of land (at market valuations) from developers holding but not utilising planning approvals and housing land allocations.*

*Council therefore agrees to write to the government to request changes be made to national legislation to allow these things to be done.*

It was moved by Councillor Rawson, and seconded, that the motion be amended by the deletion of the final paragraph and addition of the following replacement paragraphs:

*"To write to the Government to:*

- a) Ask Government to take more action to incentivise the delivery of housing by developers, including the taking up of the full set of recommendations made by Sir Michael Lyons, with particular emphasis on the incentives proposed in the 'use it or lose it' clause;*
- b) Express concern that the current planning system, particularly the way the five year supply methodology works, is making it more difficult to deliver sound plans and easier for unallocated sites to come forward running the risk of undermining the local plan's wider strategy. Government is asked to urgently*

*review the methodology of calculating the five year supply as at present it encourages a vicious circle that is extremely difficult to demonstrate;*

- c) Ask Government to amend national policy so that the lack of a five year supply remains a material consideration in the determination of applications for planning permission but that it does not automatically render the plan's housing policies out of date;*
- d) Ask Government to strengthen national planning policy to give greater weight to the likelihood of the delivery of sites proposed and allocated in local plans. We suggest that unless clear evidence emerges that the site will not be delivered, that the assumption is that it will be, especially where alternative proposals may undermine wider planning strategies such as the regeneration of brownfield land.*

The amendment was put to the vote and carried.

The motion was put to the vote and carried.

**Resolved:**

**Council welcomes the recent submission of part 1 (Local Plan) of the city's Core Strategy and the appointment of the inquiry inspector. However this neither lifts the pressure for more homes nor ensures that more housing is built.**

**Council notes that in the Derby area sufficient land has been allocated for the majority of new homes up to the end of the plan period in 2028, both within and close to the city. Consultations on the Part 2 allocations will be starting shortly to identify additional land. A large proportion of the housing land is already available, much with planning approval, sufficient to meet current demand for housing in the Derby area, but developers are not building homes at the rate required to meet this demand. This means that under the National Planning Policy Framework more land has to be allocated for housing.**

**Council notes that allocating further land means that developers can pick and choose which sites to develop, often choosing to build on greenfield sites over brownfield sites, and sites where they will make most profit, not sites which local people would like to see developed. This is not just a problem in Derby.**

## 92/15 Notice of Motion: Electoral Arrangements

It was moved by Councillor Banwait, and seconded, that:

*Council recognises the growing demand for a change to Derby's local election cycle;*

*That there is an overwhelming case for moving from so-called "elections by thirds" to "whole city council elections" every four years;*

*Council therefore resolves that there should be a consultation exercise undertaken immediately and that an extraordinary council meeting take place early in the new municipal year which will formally consider the proposal that "whole city council elections" be adopted.*

It was moved by Councillor Holmes, and seconded, that the motion be amended such that it would read as follows:

*Council recognises the need for a debate into Derby's electoral cycle.*

*Council therefore resolves that consultation and an extraordinary meeting of Council take place in the new municipal year which will formally consider if "whole city elections" should be adopted in place of the current "election by thirds".*

The amendment was put to the vote and carried.
